

Clinical Utilization Management Guidelines

Attached is a list of the *Clinical Utilization Management (UM) Guidelines* the health plan has adopted.

The full list of *Medical Policies* and *Clinical UM Guidelines* are publicly available on the [Medical Policy and Clinical UM Guideline subsidiary website](#). Their purpose is to help you provide quality care by reducing inappropriate use of medical resources.

MCG[®] care guidelines are used only for:

- Medical necessity review for medical inpatient review.
- Inpatient site of service appropriateness.
- Inpatient rehabilitation and skilled nursing facility review.
- Outpatient based service or procedure where there is not an established medical policy or clinical UM guideline.

In addition, Level of Care Utilization System (LOCUS), and Children and Adolescent Level of Care Utilization System (CALOCUS) criteria are used for mental health and substance use services according to state requirements.

Medicaid state contracts, regulatory guidance, CMS requirements and our *Medical Policy/Clinical UM Guidelines* supersede MCG care guidelines.

Note: We make determinations of medical necessity on a case-by-case basis in accordance with the definition of medical necessity that is contained within the Medicaid state contract, regulatory guidance, CMS requirements or in our *Medical Necessity Criteria Policy ADMIN.00004*.

If the request does not meet established criteria guidelines, it will be referred to the licensed physician or licensed psychologist reviewer with the appropriate clinical expertise to make a decision.

Clinical Utilization Management Guidelines

The *Clinical Utilization Management Guidelines (CUMG)* below were adopted by the Medical Operations Committee for Healthy Blue members on June 25, 2020. Note, not all of the services and codes referenced within these guidelines are reimbursed under Medicaid. Please refer to Medicaid guidelines for coverage and reimbursement information. These guidelines take effect on January 1, 2021.
