

## Chiropractic medicine benefit update

### Summary of change

Effective immediately, chiropractic X-rays used as a diagnostic tool are covered services. The services must be within the chiropractic physician's scope of practice. Healthy Blue will address any previously denied claims.

Healthy Blue continues to cover chiropractic services. These services are separate from the chiropractic services offered in the Complementary Health and Alternative Therapies for Chronic Pain Management program. Chiropractic services are limited to examinations, diagnoses, adjustments, manipulations, and treatments of malposition articulations and structures of the body provided by licensed chiropractic physicians practicing within their scope of practice.
